SUMMARY

Highly motivated and detail-oriented Computer Science graduate with strong foundational knowledge in software development, data structures, and algorithms. Proficient in programming languages such as Python with hands-on experience in building web applications. Skilled in problem-solving, version control (Git), and agile methodologies. Eager to contribute to a dynamic development team and grow as a software engineer by delivering efficient and scalable solutions in real-world projects.

EDUCATION

BTech in Computer Science & Engineering

Rajiv Gandhi Proudhyogiki Vishwavidyalaya

📅 07/2021 - 06/2025   📍 Gwalior, India

GPA
7.43 / 10.0

12th (PCM) Board

Rajasthan Board

📅 07/2020 - 06/2021   📍 Dholpur, IND

Percentage
89.60%

SKILLS

Programming Language
Python

Development
HTML, CSS, JavaScript

Framework
ReactJS

Tools
Git, GitHub, VS Code

Database
MySQL

Technical Concepts
OOP Concepts, DSA, Computer Networks, DBMS, OS

Soft - Skills

Communication, Problem-solving, Team Collaboration, Attention to Detail, Adaptability.

Certifications

Crash Course on Python (Coursera) - E6B6NSMVCYTE

EXPERIENCE

Academic Project – Travel Blog Website

Shri Ram College of Engineering & Management

📅 03/2025 - 04/2025   📍 Dholpur

- Designed and developed a responsive travel blog website using HTML, CSS and JavaScript.
- Implemented user-friendly interface with animations and mobile responsiveness.
- Write clean, modular, and reusable Code following industry best practices and naming conventions.

PROJECTS

Travoire - Travel Blog Website

- Designed and developed a responsive travel blog website to showcase destination stories and travel experiences.
- Built a **static Contact Us form** with input validation for user inquiries.
- Added a **footer section** with navigation links, social media icons, and copyright.
- Applied media queries for full responsiveness across mobile, tablet, and desktop devices.
- Ensured smooth navigation with anchor links, scroll behavior, and mobile-friendly hamburger menu.

Currency Convertor

- Developed a responsive currency converter web application for real-time currency exchange calculations.
- Integrated Exchange rate API to fetch up-to-date conversion rates for multiple glob Currencies.
- Designed a user-friendly UI with dropdown selectors for "From" and "To" currency and amount input field.
- Used CSS Flexbox and media queries to ensure full responsiveness across all screen sizes.
